

COPU

CAN YOU DO MORE FOR THE EARTH BY USING LESS ENERGY TO CHANGE IT?

WHY NOT? COPU Hybrid Green Roof Media has the lowest embodied energy rating in the market today. In addition to consuming the least amount of energy from extraction to final installation, COPU is the lightest weight and highest performing green roof media available. Environmentally friendly, horticulturally superior, and cost competitive COPU Hybrid Green Roof Media is the easy answer for your next green roof project. Are you “doing the right thing?”
